6	Trailer or excerpt	page 3
	Appendix A – Filemail	page 4

1 Version to deliver and subtitles

Unless Le FIFA's programming team has specified a version of the film to deliver. Here are the rules that will let you determine the version to deliver.

- The film delivered must be **accessible to French-speaking and/or English-speaking viewers**.
- We always **favour the original audio track** (no dubbing ideally).
- If the film is available in versions for both French-speaking and English-speaking viewers, **we favour the French-speaking version**.

Here are some additional rules specific to the support type

- **DCP** : the subtitles must be **included in the OV DCP** (Original Version) **or the VF DCP** (Version File/ supplemental package) but not as a separate subtitle file.
- **ProRes** or **h264** : the subtitles may be **burnt in or available as a separate file** (the subtitle file must respect our specifications; see section 5 of this document).
- For the ProRes, it is favorable to have burnt in subtitles

IF YOU ARE UNSURE OF THE VERSION TO PROVIDE PLEASE LET US KNOW (technique@lefifa.com).

2 Assets to deliver

- DCP – preferable
- If the DCP is not available, ProRes video file or DNxHD
- If none of the above are available, H.264 video file
- Subtitles (if necessary)
- Trailer or excerpt

PLEASE DO NOT COLOUR BARS OR A COUNTDOWN AT THE BEGINNING OF THE FILE. NOTIFY US IF IT IS THE CASE (technique@lefifa.com).

You must deliver at least :

- 1 DCP or ProRes (or DNxHD) or H.264
- 1 trailer or excerpt

3 Delivery mode

Here are the options to deliver the assets; favor option 1.

Option 1

Upload your files here: <https://lefifa.filemail.com> (see appendix A for more information on the Filemail service).

Option 2

Share a download link to technique@lefifa.com (using Aspera or other Cloud services).

Please note that we do not have a FTP server.

4 File specifications

4.1 ProRes

- Video codecs: ProRes422 or ProRes422HQ (or DNxHD)
- 5.1 audio mix – *this audio configuration is preferable but not essential.*

For the audio streams, it is preferable to follow this order; **please identify your streams:**

- Stream 1—Left (FL)
- Stream 2—Right (FR)
- Stream 3—Centre (FC)
- Stream 4—Low Frequency Effects (LFE)
- Stream 5—Left Surround (BL)
- Stream 6—Right Surround (BR)

IT IS NECESSARY THAT YOU INFORM US IF YOUR ASSETS DO NOT MEET THE REQUIREMENTS (technique@lefifa.com).

4.2 H264

- Video and audio codecs: H.264, AAC
- Bitrate: 10,000 kbps or higher
- Frame rate: 30 fps or less
- Audio mix : see

IT IS NECESSARY THAT YOU INFORM US IF YOUR ASSETS DO NOT MEET THE REQUIREMENTS (technique@lefifa.com).

5 Subtitle files specifications

The only formats accepted are **.srt (SubRip)** and **.vtt (WebVTT)**; one file for each language. It is imperative that the subtitles be in perfect sync with the image (timecode starting at 00:00:00,000). IF THIS IS NOT THE CASE, PLEASE LET US KNOW (technique@lefifa.com).

We do not require closed captions (for the hearing impaired), but feel free to provide them if they are available.

6 Trailer or excerpt

For promotional purposes, a short trailer or excerpt (30-120 seconds) should be delivered in the following digitized formats:

- H264 with burnt-in subtitles (if necessary)
- ProRes without burnt-in subtitles.

The ProRes file will potentially be used to create our festival trailer.

APPENDIX A

FILEMAIL

Here is the link upload link to Le FIFA's Filemail account : <https://lefifa.filemail.com>

If you have any issues related to Filemail, please consult their support page : <https://support.filemail.com>. If you have any additional issues, please contact technique@lefifa.com.

To accelerate the upload speed when using Filemail, you can install their desktop application. Here are the links:

- MacOS: <https://www.filemail.com/apps/mac-file-transfer-app>
- Windows: <https://www.filemail.com/apps/windows-file-transfer-app-for-pc>
